

## Hair and Beauty Salons and Barbershops Restart Risk Assessment

Salon/barbershop		Date of Assessment	
Activity		Name of Assessor	

This assessment helps salons and barbershops to protect their clients whilst keeping employees and anyone else affected by the salon/barbershop's activities as safe as possible from the transmission of the virus. Government advice is changing frequently and so a weekly review of the assessment is required.

Completing a risk assessment will provide good evidence that you are a responsible employer and have carefully considered the risks to your employees and clients and taken steps to address them. The Health and Safety Executive (HSE) says there is no fixed amount of time that you should keep general H&S risk assessments. However, they should be kept for as long as they are relevant.

### Important: treatments and your risk assessment

NHBF advice is to avoid offering treatments which involve working near the eyes, nose and mouth or where there is a risk of contact with body fluids. If you do, you must carefully consider the risks and record how you will manage them in the additional actions column on your risk assessment form.

**High risk:** Almost certain or imminent chance of major injury/damage, lost time, business interruption, or disablement.

**Medium risk:** An even chance that it may happen and may lead to lost time, injury, illness, damage or lost business.

**Low risk:** Improbable chance, unlikely to happen, or negligible risk (delay only).

Please download our [free guide](#) for detailed information about the steps you should take before and after reopening your salon or barbershop.
